

Air CO₂ntrol Coach

CO₂-Monitor with display illumination

- Measuring range: 0...9999 ppm
- Incl. individual display illumination and alarm setting
- Indication of time, temperature, humidity and CO₂
- Incl. CO₂ history of the last 24 hours
- Incl. micro USB cable (no adapter)

Application profile:

Perfectly designed for monitoring the environment (CO₂-concentration) in public buildings where people are present. Large display with history of the last 24 hours. The coloured display illumination allows a quick conclusion about the CO₂-concentration in buildings. An audible alarm will resound as soon as the individually setting is exceeded.

Technical data:

CO ₂ -Monitor	
Measuring range CO ₂	0...9999 ppm
Resolution	1 ppm
Accuracy	± 100 ppm or 7% whichever is greater, > 3000 ppm ± 10%
Temperature	0...50°C ± 1,0°C
Rel. Humidity	1...95% ± 3% (35-75%)
Housing	Plastic (ABS)
Dimensions	105 x 32 x 55 mm
Weight	0,086 kg (only instrument)
Power supply	USB cable (inclusive) DC 5V, >300mA
Order-no.	5020-0112
